About Me

I am a vocational high school student with 3 years of experience in the world of web developers, and I have career aspirations in the field of web developers, especially front end developers. I have skills in html, css, javascript, figma, and git.

Experiences

Front-end Developer Internship at a Prestigious University in Jakarta **August - September 2022**

- Collaborated with the team on a Laravel project, taking charge as a Backend Developer.
- Developed the initial code architecture for an academic information system website.
- Created UI/UX designs to enhance the user experience.
- Designed and tested prototype web modules.

Personal PHP Login System Project **September 2022**

- Independently designed and implemented a PHP-based login system for web applications.
- Developed the database schema and designed the user interface (UI/UX) for the web platform.
- Conducted thorough testing and debugging of web modules.

Garuda Hackathon Pusprenas

- Served as a back-end developer using Laravel.
- Created web structures with HTML and CSS.
- Developed a 36-hour-long post management system during the hackathon.

STEM Hackathon **October 2023**

- Served as a back-end developer using PHP
- Created web structures with HTML and CSS.
- Developed a 18-hour-long post management system during the hackathon.
